

Collusion Diagram

? SO, is this a collusion?

Does everything I see in this person in my box (#2) and everything I do or feel in my box (#3), and everything the other person sees in me in her or his box (#4), and all I think or do to recruit allies (#5), does all this lead to more of what I complain about in #1 (or worse)?

If yes, then *I might be in a collusion*. To learn more, I can ask myself the following questions:

Who in this situation *needs* to change?

Who in this situation *thinks* they need to change?

So who in this situation is *likely* to change?

So how long is this likely to go on?

What do I want more than anything else in the world in this situation?

But do the things I think and do in the box invite that?

What do they invite?
